State Engineer

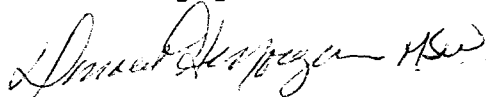

RE: Water Right #57 8412

Dear Mr. Morgan:

Please find enclosed documents generated by the Utah State Prison Maintenance Section pertaining to Water Right 5784-12. It should be noted that your letter dated July 17, 1991, which was actually received by me on August 7, 1991, listed the water right as 57 8412. Mr. Rick Johnson, Maintenance Mechanical Manager, assumed that his well number 5784-12 is the same water right. I would request clarification on this particular number as the Department of Corrections' number is different than that contained in your letter of July 17, 1991. Additionally, I am forwarding the monitoring reports on well #5784-12 with the hope that this information will address your needs.

In the event that you require additional information or clarification of information received, please contact Mr. Rick Johnson at the Utah State Prison, 571-2300, ext. 370.

Sincerely yours,

Don Morgan
